Nobody likes visiting a doctor. However, when people feel sick they make an appointment with a doctor, send for a doctor or, in most serious cases, call an ambulance. For such illnesses as flu, cold, fever, food poisoning, you can buy either some medicine from the chemist.

Undoubtedly, all of the illnesses have different symptoms. If you have a sore throat, sneezing and cough, you have a cold. But when you have running nose, a high temperature and other symptoms for cold, you've got flu. Let us try to make another diagnosis.
